

Agreement for families – using Google Meet

- I understand that a parent or carer should be supervising at all times during an online session.
- I understand that I must follow the rules my teacher shares at the start of the session.
- I understand that online sessions must be accessed from family areas, **not children's bedrooms.**
- I understand that teachers may ask for cameras to be disabled and for communication to be only using microphones, or they may ask for both cameras and microphones to be disabled.
- I understand that, should an online session be recorded, I will be asked for permission in advance. If a session is recorded, it will be stored by the school until the end of term, to ensure the safety of all participants.
- I understand that my child must not take screen shots/recordings of the session.
- I understand that no images/recordings of the session should be shared, either within or outside the Google Meet group environment.
- I understand that normal classroom standards of behaviour will be expected and that if these are not adhered to, access to these sessions will be removed.
- I understand that, in line with Safeguarding advice, two staff members will be involved in all online sessions.
- I understand that the Chat aspect of Google Meet may be deactivated.
